

FALL 2021 PUBLIC LECTURE

# Climate Change: We're Screwed, It's Our Fault, It's going to Get Worse and There's Nothing We Can Do About It?

A joint event between McMaster Climate Centre and  
McMaster Alumni Association

KEYNOTE SPEAKER

**Dr. Adam Fenech**

Professor and Associate Dean,  
School of Climate Change & Adaptation  
University of Prince Edward Island

**Wednesday,  
November 10th,**

**6:00 pm | Online at Zoom**

**This session will review the current state  
of climate change, future trajectory of  
these changes and possible remedial ac-  
tions.**

**Dr. Adam Fenech** is a professor and the Director of the University of Prince Edward Island's Climate Research Lab that conducts research on the vulnerability, impacts and adaptation to climate change. His work on sea level rise has won international awards including one from MIT for communicating coastal science. He has represented Canada at international climate negotiating sessions; written climate policy speeches for Canadian Environment Ministers; and authored Canadian reports on climate change to the United Nations. He has edited eight books on climate change, most recently on Global Climate Change, Biodiversity and Sustainability in the Middle East. Dr. Fenech has worked for Harvard University researching the history of the science/policy interfaces of climate change. Dr. Fenech has taught at the University of Toronto as well as the Smithsonian Institution for over 20 years, and lectures regularly at universities across Canada and around the world. Dr. Fenech shared in the 2007 Nobel Peace Prize for his work with the Intergovernmental Panel on Climate Change.
